Experience

C.H. Robinson Worldwide Inc. – Eden Prairie, MN   *Jan 2016 – Present*

Software Engineer II

Developing testable, robust, and adaptable software for one of the top industries leaders in Third Party Logistics. The products I deliver are network internal tools used by sales and other I.T. personnel. As a full stack developer, I am primarily coding AngularJS webpages, backed with C#.NET web services, and SQL Server or ElasticSearch data stores. Other technologies exposed to and used include MongoDB, ReactJs, ReduxJs, NodeJs, .NET Prism, VB.NET, WPF, RabbitMQ, Application Insights, and Auth0.

Some of my achievements at C.H. include taking the lead on various large projects, becoming proficient and mentoring in ElasticSearch, and giving multiple presentations - including lunch & learns.

J.R. Watkins Co. – Winona, MN   *Sep 2015 – Dec 2015*

Information Services Intern

Enhanced and modified Watkins' website shopping cart management, and order processing.
Primary focus was to optimize order and cart processing time, as well as smaller side projects. Worked primarily with ASP.NET/C#, Entity Framework, MVC, REST web services, and SQL Server.

Open Access Technology International Inc. – Minneapolis, MN   *June 2015 – Aug 2015*

Jr. Software Developer Intern

Worked on the product delivery team, for OATI's Smart Grid products. Updated and enhanced applications in already developed modules using SQL Server 2008, C#.NET, and XML/XSLT. Developed landing page for Smart Grip Apps using HTML/Javascript/CSS. Tested coworker's code changes as well. Extensive work with OATI's databases and SOAP/REST web services.
