Experience

C.H. Robinson Worldwide Inc.
Jan 2016 – Present

Programmer Analyst I

Developing testable, robust, and adaptable software for one of the top industries leaders in Third Party Logistics. The products I deliver are network internal tools used by sales and other I.T. personnel. As a full stack developer, I am primarily coding AngularJS webpages, backed with C#.NET web services, and SQL Server or ElasticSearch data stores. Other technologies exposed to and used include ReactJs, ReduxJs, NodeJs, .NET Prism, VB.NET, WPF, ElectronJs, Application Insights, and Auth0.

J.R. Watkins Co.
Sep 2015 – Dec 2015

Information Services Intern

Enhanced and modified Watkins' website shopping cart management, and order processing.
Primary focus was to optimize order and cart processing time, as well as smaller side projects. Worked primarily with ASP.NET/C#, Entity Framework, MVC, REST web services, and SQL Server.

Open Access Technology International Inc.
June 2015 – Aug 2015

Jr. Software Developer Intern

Worked on the product delivery team, for OATI's Smart Grid products. Updated and enhanced applications in already developed modules using SQL Server 2008, C#.NET, and XML/XSLT. Developed landing page for Smart Grip Apps using HTML/Javascript/CSS. Tested coworker's code changes as well. Extensive work with OATI's databases and SOAP/REST web services.

Education

Winona State University
Sep 2012 – Dec 2015

BS, Computer Science and BA, Mathematics (double major)
3.55 CS GPA last 5 semesters of school
Activities: Club Baseball

Carroll University
Sep 2011 – May 2012

BS, Mathematics and Physics Minor
Activities: Varsity Baseball

Skills

.NET, C#, Java, VisualBasic, AngularJS, JQuery, JavaScript, WPF, HTML, CSS, Boostrap, Material UI, SQL Server, ElasticSearch, NodeJs, PHP, Auth0, Redis Cache, REST and SOAP web services, MS Azure's App Insights

In my spare time I also code, maintain, and deploy websites for clients who own small businesses, more details can be found at my resume website – alexbhanneman.com
